# Family Preservation Program

Family Preservation Workers (FPW) assist families with formulating and implementing intervention strategies to address parenting challenges. FPWs provide advocacy during the legal/court process, and provide support during Family Group Conferences/Mediation. Advocacy and support will be provided for families who are involved with the:

- Family Courts System
- Ministry of Children and Family Development (MCFD)
- Ministry of Social Development and Poverty Reduction
- Other service providers

FPWs will consult with service providers to ensure quality service and that the needs of the family are met. FPW will provide information and referrals to a variety of programs and services.

## Groups that we offer:

- Women's Group
- Anger Stress Management
- When Love Hurts (for women experiencing violence in intimate relationships)
- Parenting programs
- Food Skills for Families
- PEACE – Children who witness abuse
- Rainbows – Grief and Loss

## Family Empowerment Program (FEP)

The FEP offers visitation services to families that are involved with MCFD and CSFS. We provide supervised visits with family members as well as transportation to and from the foster home. Our main priority is the safety and well-being of the children in our care. We work from a strengths perspective and encourage with positive reinforcement, as well as refer clients to programs to assist with the complex responsibility of being a parent.
